MARKET VIEW

During the month of October, Sucorinvest Bond Fund (SBF) performance decreased by -1.44%. The decline was a result of capital outflow by foreign investors, as well as market sentiment amid trade war tensions between the US and China. Going forward, in the short-term, we will continue to allocate a portion of the investment towards short tenor names (3-5 year), and an additional allocation of corporate bonds to reduce market volatility. Meanwhile in the long term, the 10-year yield bond market at levels of 8.3-8.7% is still constructive for Pension Funds and Insurance, with controlled inflation levels in line with the Central Bank's target of 3.2-3.5%.
