MARKET VIEW

Sucorinvest Citra Dana Berimbang (SCDB) posted a performance of 2.61% in August. An increase outperforming the benchmark by 3.03%, and as of year-to-date SCDB still managed to outperform the benchmark by 12.10%. Depreciation of the Rupiah, a widening current account deficit, and a portfolio rebalancing of the global stock index kept the Indonesian market quite under pressure. Going forward, we remain optimistic those of commodity-based will continue to drive SCDB' performance higher, supported by high commodity prices in 2018. In addition, the bond market continues to experience pressure due to the Fed's continuing plan of increasing interest rates in the months of September and December of 2018.
